REVISED LIST OF PROGRAMS!!!

YOUNG EXPLORERS CLUB

Sponsored by the Morgan County Audubon Society, a Chapter of the Illinois Audubon Society, and the Jacksonville Public Library

Due to the COVID-19 pandemic, all of the Young Explorers Club (YEC) programs for the 2020-2021 season will be held virtually via Zoom! The Jacksonville Public Library will coordinate the meetings which start at 11:00 a.m. Pre-registration is required and can be done by contacting Sarah Snyder at the Library (ssnyder@jaxpl.org OR 217/243-5435). Registered participants will receive login instructions the day before the program. If you are unable to participate live, recordings of the programs will be available to view at the library. Students of all ages are welcome to join and participate in all or some YEC programs. YEC activities are free. Our revised list of programs is below.

February 20, 2021. Dendrochronology and Maple Syrup (via Zoom). Come learn how tree rings are used to date archaeological materials and to better understand our human past. Students will also learn to identify sugar maple trees and how sap from these trees is turned into syrup.

March 20, 2021. Monarch Butterflies (via Zoom). Ed Anderson will introduce participants to the amazing lives of Monarch Butterflies. Students will learn about the life cycle of the butterflies and how to attract them to their yards.

To learn more, please contact Allen Yow at (217) 243-8457.
